Description

This project is an informational site for my freelance DJ work, DJ Fadi. It will outline where I perform and what types of music I handle. Sections include:

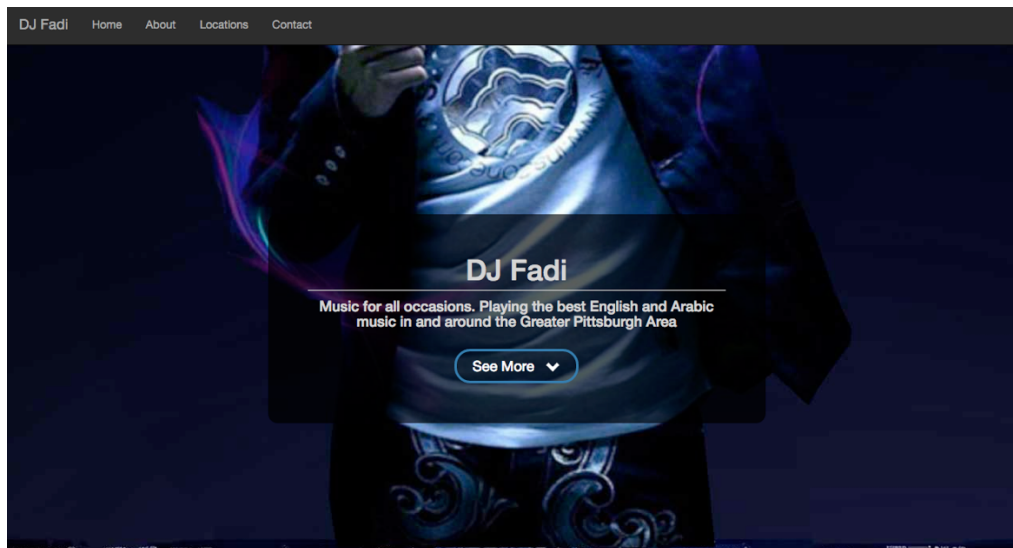

- A decorative header section with a title/tagline
- An “About” section, outlining the information about my services
- A “Locations” section, giving a visual representation of the areas I cover
- A “Contact” section, allowing users to request quotes or contact with general questions

Technologies

This project uses the following technologies and frameworks:

- PHP for processing forms, etc.
- HTML/CSS
 - Bootstrap frontend framework
 - Additional HTML/CSS for customization
- JavaScript
 - jQuery for smooth scrolling and AJAX submission of forms
